

# GREAT - Opportunities

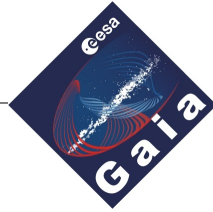

Nicholas Walton

Institute of Astronomy  
University of Cambridge  
&  
Gaia Science Team

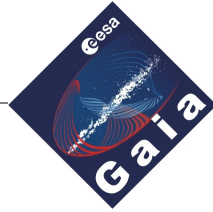

# The European Environment

---

- The AstroNet Roadmap
  - Importance of Gaia science in timeframe 2010-2020
  - The infrastructure roadmap
  - New instrumentation WG
- ESO/ESA working groups
  - Opportunities for use of medium size telescopes
- ESO
  - Large surveys/ Key Programmes
- European Grid Institute
  - Computational opportunities

# International Links

- Interactions with non-European Groups
  - Gemini/Subaru → WFMOS (8-m WF spectroscopy)
- Example: links with the Chinese community
  - LAMOST → 4.5-m WF spectroscopy
  - Talk on LAMOST – a new multi-object spectroscopic survey telescope
  - Talk on planning for LAMOST surveys
